Enabling Mobilities 2019-05-28 Paola Pucci This book investigates how established transport planning tools can evolve to understand and plan for the ever-changing contemporary mobilities that influence the opportunities available to individuals. It discusses existing techniques, revised in the light of the growing interest in the social implications of transport planning decisions: these include analytical tools to interpret consolidated and emerging phenomena, as well as operational tools to tackle new and existing mobility demands and needs. The book then addresses the implications of everyday mobility for individuals and communities. The result of a continuous exchange between the two authors, it brings together the results of their various research projects. Despite referring to different objects and settings, the work presented is connected by an underlying interest in the impact that mobility has on people in an increasingly mobile world, and the need to include such concerns into mobility planning and policy.

Road Safety Annual Report 2017 2017-10-10 International Transport Forum The IRTAD Road Safety Annual Report 2017 provides an overview of road safety performance for 2015 in 40 countries, with preliminary data for 2016, and detailed reports for each country. It includes tables with cross country comparisons on key safety indicators. The report outlines the most ...

Don't Believe the Hype!! (First Revision) 2017-05-11 C. Brian Madden Ever ask the question, "Why today's Millennials in America's Black Community seem so mad at the world and don't care whether they live or die these days?" There is a reason for it; and it is being done on purpose, to destroy this country! It's called Communism! And it is Real! Don't Believe the Hype!! (First Revision) is an explosive book which investigates how and why Communist Subversion (Perversion) has taken over the African-American Community; with the sole intent to use and destroy them, while simultaneously destroying the rest of United States of America from within! Using Historical Facts from the Mid-19th Century to the present era, Don't Believe the Hype!! will surely spark Geo-political conversations between people of all races, genders, and back grounds!

Older Canadians on the Move 2017-12-14 Expert Panel on the Transportation Needs of an Aging Population Older Canadians on the Move is a comprehensive, high-quality, expert panel study that examines all modes of transportation, including but not limited to those under federal jurisdiction such as intercity buses, ferries, trains and planes. The report is Canadian-specific, taking into account the country's unique geography, vast size, low population density, and jurisdictional division of transportation control. Unlike other reports that focus on disability, this report examines the transportation needs that accompany normal changes associated with aging and focuses on older adults in general, rather than specific chronological ages or disabilities. Importantly, the Panel used a "door-through-door" approach when examining the issues, focusing on integrated seamless movement across the transportation network that would benefit everyone, regardless of background, age, or ability.

Developments in Information & Knowledge Management for Business Applications 2020-12-14 Natalia Kryvinska This book provides solutions to manage information competently in order to increase its business usage. The information/knowledge business is a highly-dynamic evolving industry, and the novel methodologies and practices for the business information processing, as well as application of mathematical models to the business analytics and efficient management, are the most essential for the decision-making and further development of this field. Consequently, in this series subtitle first volume, the authors study challenges and opportunities, as well as embrace different aspects of business information processing for an efficient enterprise management. The authors cover also methods and techniques, as well as strategies for the efficient business information processing for management. Besides, the authors analyse strategies for lowering business information/data loss, while improving customer satisfaction and maintenance levels. The major goal is to analyse the key aspects of managerial implications on the informational business on the continuous basis.

Real Estate and GIS 2018-07-17 Richard Reed Real Estate and GIS focuses on the application of geographic information systems (GIS) and mapping technologies in the expanding property and real estate discipline. Whilst a thorough understanding of location is understood to be fundamental to the property discipline, real estate professionals and students have yet to harness the full potential of spatial analysis and mapping in their work. This book demonstrates the crucial role that technological advances can play in collecting, organising and analysing large volumes of real estate data in order to improve decision-making. International case studies, chapter summaries and discussion questions make this book the perfect textbook for property and applied GIS courses. Property and real estate professionals including surveyors, valuers, property developers, urban economists and financial analysts will also find this book an invaluable guide to the understanding and application of GIS technology within a real estate industry context.

Handbook on Transport and Urban Transformation in China 2020-03-28 Chia-Lin Chen Since 1978, when China embarked on a new period of economic reforms and introduced open door policies, it has experienced a great urban transformation. The role of transport has proved indispensable in this unprecedented rapid urbanisation and economic growth. As the first research-focused book dedicated to this important topic, the Handbook on Transport and Urban Transformation in China offers new insight into the various opportunities and challenges brought by fast-paced motorization and urban development, and explores them in broad spatial-economic, environmental, social, and institutional dimensions.

Smart Energy for Smart Transport 2023-03-10 Eftihia G. Nathanail This book reports on original research and practical findings fostering sustainable and smart urban mobility transformation. Gathering contributions presented at the 6th Conference on Sustainable Urban Mobility, held from August 31 to September 2, 2022, on Skiathos Island, Greece, it covers topics relating to electric and clean energy, intelligent technologies and automation, green travel modes, and transport safety. It highlights solutions for inclusive transportation, sustainable and resilient supply chains, and describes novel strategies for urban planning and innovative transport infrastructure. This book offers extensive information to academicians, researchers, practitioners and decision makers working on effective strategies to transform urban mobility in a sustainable and equitable way.

ISO 9001, ISO 14001, and New Management Standards 2017-10-10 Iñaki Heras-Saizarbitoria This book is a comprehensive reference on ISO management system standards and their implementation. The impacts that ISO 9001 and ISO 14001 have had on business performance are analyzed in depth, and up-to-date perspectives are offered on the integration of these and other management standards (e.g. SA8000, ISO/TS 16949). Detailed

information is provided on the signaling value of different management standards and on the new ISO standards for management systems, such as ISO 50001 and ISO 45001, relating to energy management and occupational health and safety. The role of audits in ensuring compliance with the standards and achievement of objectives is also carefully considered. The volume examines avenues for further research and emerging challenges. In offering an integrated, holistic perspective on ISO management system standards, this book will have wide appeal for academics, public decision-makers, and practitioners in the field of quality and environmental management.

Proceedings of the 2023 International Conference on Advances in Computing Research (ACR'23) 2023-05-26 Kevin Daimi This book includes recent research on Data Science, IoT, Smart Cities and Smart Energy, Health Informatics, and Network Security. The International Conference on Advances in Computing Research (ACR'23) brings together a diverse group of researchers from all over the world with the intent of fostering collaboration and dissemination of the advances in computing technologies. The conference is aptly segmented into six tracks to promote a birds-of-the-same-feather congregation and maximize participation. The first track covers computational intelligence, which include, among others, research topics on artificial intelligence, knowledge representation and management, application and theory of neural systems, fuzzy and expert systems, and genetic algorithms. The second track focuses on cybersecurity engineering. It includes pertinent topics such as incident response, hardware and network security, digital biometrics and forensics technologies, and cybersecurity metrics and assessment. Further, it features emerging security technologies and high-tech systems security. The third track includes studies on data analytics. It covers topics such as data management, statistical and deep analytics, semantics and time series analytics, and a multitude of important applications of data analytics in areas such as engineering, health care, business, and manufacturing. The fourth track on network and communications covers a wide range of topics in both areas including protocols and operations, ubiquitous networks, ad hoc and sensor networks, cellular systems, virtual and augmented reality streaming, information centric networks, and the emerging areas in connected and autonomous vehicle communications. Lastly, the final track on cloud and mobile computing includes areas of interest in cloud computing such as infrastructure, service, management and operations, architecture, and interoperability and federation. This track also includes important topics in mobile computing such as services and applications, communication architectures, positioning and tracking technologies, the general applications of mobile computing.

The Responsive Judge 2018-07-06 Tania Sourdin This book focuses on the changing role of judges in courts, tribunals, and other forums across a variety of jurisdictions. With contributions by international experts in judicial administration and senior judicial figures, it provides a unique comparative perspective on the role of modern judges in a rapidly evolving environment and the pressures of effective judicial administration. The chapters are sourced from a Collaborative Research Network focused on innovations in judging, and sponsored by the international Law and Society Association. The book provides essential insights and perspectives for judges, judicial officers, and administrators, allowing them to respond to the challenges of the twenty-first century. It is also a valuable resource for legal practitioners and judicial experts, shedding light on the role of the modern judge and the strategies they employ.

Innovative Mobile and Internet Services in Ubiquitous Computing 2022-06-15 Leonard Barolli The aim of the book "Innovative Mobile and Internet Services in Ubiquitous Computing" is to provide latest research findings, methods and development techniques, challenges and solutions from both theoretical and practical perspectives related to UPC with an emphasis on innovative, mobile and internet services. With the proliferation of wireless technologies and electronic devices, there is a fast-growing interest in Ubiquitous and Pervasive Computing (UPC). The UPC enables to create a human-oriented computing environment where computer chips are embedded in everyday objects and interact with physical world. Through UPC, people can get online even while moving around, thus having almost permanent access to their preferred services. With a great potential to revolutionize our lives, UPC also poses new research challenges.

Dams in Brazil 2018-08-30 Guillaume Leturcq The book focuses on the human and social effects of the construction of hydroelectric dams in Brazil. It discusses themes such as forced migrations, how the families of the victims of the dams adapt to new living areas, the struggle of families with the relocation of their homes and the fact that they are neglected by builders and government. These discussions are carried out in a comparative perspective between Southern and Northern Brazil, where contexts and living conditions are quite different. The book's main objective is to analyze the movements, adaptations and life changes in families suffering from the effects of dams throughout Brazil. This is the first book that analyzes the relationship dam-space with the intent to understand how dams affect the territory. The book is organized in three chapters: the dams' effects in Brazil and the territorial impacts; human and social consequences of dam construction; a regional comparison of the effects of dams between the South and the North of the country.

The Best American Travel Writing 2020 2020-11-03 Jason Wilson The year's best travel writing, as chosen by series editor Jason Wilson and guest editor Robert Macfarlane. Writing, reading, and dreaming about travel have surged, writes Robert MacFarlane in his introduction to the Best American Travel Writing 2020. From an existential reckoning in avalanche school, to an act of kindness at the Mexican-American border, to a moral dilemma at a Kenyan orphanage, the journeys showcased in this collection are as spiritual as they are physical. These stories provide not just remarkable entertainment, but also, as MacFarlane says, deep comfort, "carrying hope, creating connections, transporting readers to other-worlds, and imagining alternative presents and alternative futures." The Best American Travel 2020 includes HEIDI JULAVITS - YIYUN LI - PAUL SALOPEK - LACY JOHNSON - EMMANUEL IDUMA - JON MOOALLEM - EMILY RABOTEAU and others

Gastronomy and Urban Space 2020-01-20 Andrzej Kowalczyk This book focuses on the relationship between gastronomy and urban space. It highlights the intrinsic role of eating establishments and the gastronomy industry for cities by assessing their huge impacts on urban changes and discussing some of the challenges posed by new developments. Written by authors with a background in geography, it starts by discussing theoretical aspects of studies on gastronomy in urban space to place the subject in the broader context of urban geography. Covering both changes and challenges in gastronomy in urban space, it presents a wide range of problems, which are described and analysed using various case studies from Europe and other parts of the world.

Counter-Terrorism Technologies 2018-07-10 Peter Lehr This book critically discusses the role of technology for counter-terrorism in general, and for securing our vulnerable open societies in particular. It is set against the backdrop of the terrorist threat posed by the combined forces of Al Qaeda and ISIS/Daesh in the foreseeable future. The book commences by illuminating current and foreseeable tactics and weapons used by these implacable enemies - weapons that may well include chemical, biological, radiological and potentially even nuclear (CBRN) devices. In a second part, it introduces technologies already available or in development that promise an increase in safety and security when it comes to the dangers posed by these terrorists. This part also includes a critical discussion of advantages and disadvantages of such technologies that are, quite often, sold as a 'silver bullet' approach in the fight against terrorism. Controversies such as those triggered by the abuse of millimeter wave scanners deployed at several Western European airports will demonstrate that there are costs involved with regard to human rights. The third, analytical part takes the critical discussion further by arguing that the uncritical fielding of new surveillance and control technologies in parallel with the on-going outsourcing and privatization of key services of the state could well lead to dystopias as envisaged in a rather prescient way by the so-called cyberpunk novels of the 1980s. The book concludes with the question that any liberal democracy should ask itself: how far can we go with regard to hardening our societies against terrorist threats?

Computational Urban Planning and Management for Smart Cities 2019-05-09 Stan Geertman This book contains a selection of the best articles presented at the CUPUM (Computational Urban Planning and Urban Management) conference, held in the second week of July 2019 at the University of Wuhan, China. The chapters included were selected based on a double-blind review process involving external reviewers.

Smart Technologies for Energy, Environment and Sustainable Development, Vol 1 2022-02-25 Mohan Lal Kolhe This book contains select proceedings of the International Conference on Smart Technologies for Energy, Environment, and Sustainable Development (ICSTEESD 2020). The book is broadly divided into the themes of energy, environment, and sustainable development; and discusses the significance and solicitations of intelligent technologies in the domain of energy and environmental systems engineering. Topics covered in this book include sustainable energy systems including renewable technologies, energy efficiency, techno-economics of energy system and policies, integrated energy system planning, environmental management, energy efficient buildings and communities, sustainable transportation, smart manufacturing processes, etc. The book will be a valuable reference for young researchers, professionals, and policy makers working in the areas of energy, environment and sustainable development.

Challenges and Solutions for Present Transport Systems 2023-01-16 Grzegorz Sierpiński This book contains an abundance of numerical analyses based on significant data sets, illustrating the close affiliation between transport systems development and quality of life. How to ensure accessibility standards for public transport for people with special needs? Which multi-criteria methods can support the problem of vehicle selection in freight transport, and which ones should be taken into account in the case of problems related to regional rail transport? What kind of How to assess technical condition of transport means? What factors should be taken into account when assessing the quality of passenger service? How to include zero emission vehicles in the consideration of transport plans? This book provides you with answers to these and many other questions. With regard to the research results discussed and the selected solutions applied, the book primarily addresses the needs of three target groups: Scientists and researchers (ITS field) Local authorities (responsible for the transport systems at the urban and regional level) Representatives of business (traffic strategy management) and industry (manufacturers of ITS components). This book gathers selected papers presented at the 18th "Transport Systems. Theory and Practice" Scientific and Technical Conference organised by the Department of Transport Systems, Traffic Engineering and Logistics at the Faculty of Transport and Aviation Engineering of the Silesian University of Technology. The conference was held on 19-20 September 2022 in Katowice (Poland).

Scottish Buses During Deregulation: Another View 2019-06-15 Kenny Barclay Kenny Barclay offers up another superb selection of photographs documenting this interesting period.

The Report: Saudi Arabia 2018 Key initiatives include a privatisation programme which would see the divestment of a number of state-owned giants, such as the partial listing of Aramco, the creation of the world's largest sovereign wealth fund and the increased participation of women in the job market. The Kingdom has played a key role too on the international stage in 2017, becoming the first country to host President Trump, a visit which resulted in renewed trade and investment commitments on both sides. Meanwhile the country's importance as a trading hub continues to grow thanks to both the various infrastructural upgrades that are taking place to its ports and airports, as well as its geographical advantage as a connector of three continents and its proximity to the Red Sea - through which 10% of world trade travels.

Handbook of Research of Internet of Things and Cyber-Physical Systems 2022-06-09 Amit Kumar Tyagi This new volume discusses how integrating IoT devices and cyber-physical systems can help society by providing multiple efficient and affordable services to users. It covers the various applications of IoT-based cyber-physical systems, such as satellite imaging in relation to climate change, industrial control systems, e-healthcare applications, security uses, automotive and traffic monitoring and control, urban smart city planning, and more. The authors also outline the methods, tools, and algorithms for IoT-based cyber-physical systems and explore the integration of machine learning, blockchain, and Internet of Things-based cloud applications. With the continuous emerging new technologies and trends in IoT technology and CPS, this volume will be a helpful resource for scientists, researchers, industry professionals, faculty and students, and others who wish to keep abreast of new developments and new challenges for sustainable development in Industry 4.0.

Handbook of U.S. Labor Statistics 2019 2019-06-26 Mary Meghan Ryan The Handbook of U.S. Labor Statistics is recognized as an authoritative resource on the U.S. labor force. It continues and enhances the Bureau of Labor Statistics's (BLS) discontinued publication, Labor Statistics. It allows the user to understand recent developments as well as to compare today's economy with past history. This edition includes new tables on employee benefits and occupational safety and health. The Handbook is a comprehensive reference providing an abundance of data on a variety of topics including: Employment and unemployment; Earnings; Prices; Productivity; Consumer expenditures; Occupational safety and health; Union membership; Working poor And much more! Features of the publication In addition to over 215 tables that present practical data, the Handbook provides: Introductory material for each chapter that contains highlights of salient data and figures that call attention to noteworthy trends in the data Notes and definitions, which contain concise descriptions of the data sources, concepts, definitions, and methodology from which the data are derived References to more comprehensive reports which provide additional data and more extensive descriptions of estimation methods, sampling, and reliability measures

The Diabetic Foot 2018-09-05 Aristidis Veves In the fourth edition of this gold-standard title, a distinguished panel of experts provides a thorough update of the significant improvements in our understanding of diabetic foot physiology and its clinical management. Divided into three sections, the first part focuses on clinical features and diagnosis; the second on pathophysiology; and the third on the management of diabetic foot problems. In addition to updating all previous chapters, several new contributions have been added, reflecting advances in our understanding of the causes of

diabetic foot ulcers and efforts to develop new and more effective therapies. The authors, many practicing at the famous Joslin-Beth Israel Deaconess Foot Center, again illuminate the successful new multidisciplinary approach now clearly required for successful treatment of the diabetic foot. Drawing on the experiences of diabetologists, podiatrists, vascular surgeons, infectious disease specialists, orthotists, plastic and orthopedic surgeons, *The Diabetic Foot: Medical and Surgical Management*, 4th Edition expertly describes standard techniques and current methods derived from the most recent data. This updated edition will be of significant value to all physicians and researchers with interest in a state-of-the-art understanding of the diabetic foot.

Capacity Mechanisms in the EU Energy Markets 2022-10-27 Leigh Hancher Capacity remuneration mechanisms (or simply capacity mechanisms) have become a fact of life in member states' energy markets and are one of the hottest topics in the wider European regulatory debate. Concerned about the security of electricity supply, national governments are implementing subsidy schemes to encourage investment in conventional power generation capacity, alongside already heavily subsidized renewable energy sources. With the increasingly connected European electricity markets, the introduction of a capacity mechanism in one country not only tends to distort its national market but may also have unforeseeable consequences for neighbouring electricity markets. As these mechanisms are adopted by member states with limited supra-national coordination as well as consideration for the cross-border impact, they tend to cause serious market distortions and put the future of the European internal electricity market at risk. This second edition will take stock of how capacity mechanisms have actually worked so far and consider the consequences they have for the European internal electricity market. It will include a detailed overview of national capacity mechanisms, their implications for the EU internal market, and will outline the nature of market failures which are likely to occur in the European electricity markets. This edition is intended to serve as a point of reference for regulators and policy-makers on how to design optimal capacity mechanisms in Europe. It will be an invaluable resource for anyone interested in energy market design, regulation, and competition issues.

Advances in National Brand and Private Label Marketing 2019-04-30 Francisco J. Martínez-López The 2019 International Conference on National Brand & Private Label Marketing is a unique academic forum for presenting and discussing original, rigorous and significant contributions from researchers around the world on marketing issues that retailers, store brand managers and national brand managers are facing. The three-day event covered a wide range of topics from varied fields including retailing, marketing, general business, psychology, economics and statistics. Further, it addressed diverse areas of application such as innovation, retail market structure, social media, consumer decision-making, store loyalty, assortment size, digital transformation, ethical aspects, cultural dimensions, and private label pricing. This volume gathers the proceedings of the 2019 NB&PL marketing conference in a collection of outstanding contributions that employ a wide variety of theoretical and methodological approaches.

Intelligent Transportation Systems (ITS) 2021-04-22 Beatriz L. Boada This book presents collective works published in the recent Special Issue (SI) entitled "Intelligent Transportation Systems (ITS)". These works address problems of mobility, environmental pollution, and road safety, as well as their related applications. The presented problems are complex and involve a large number of research areas and many advanced technologies, such as communication, sensing, and control, which are used for managing a large amount of information. The applications vary and include fleet management, driving behavior, traffic control, trajectory planning, connected vehicles, and energy consumption efficiency. Recent advances in communication technologies are becoming fundamental for the development of new advances in fleet management, traffic control, and connected vehicles. This works collected in this Special Issue propose solution methodologies to address such challenges, analyze the proposed methodologies, and evaluate their performance. This book brings together a collection of multidisciplinary works applied to ITS applications in a coherent manner.

Intelligent Systems and Applications 2019-08-23 Yaxin Bi The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence, and their real-world applications. It gathers the proceedings of the Intelligent Systems Conference 2019, which attracted a total of 546 submissions from pioneering researchers, scientists, industrial engineers, and students from all around the world. These submissions underwent a double-blind peer-review process, after which 190 were selected for inclusion in these proceedings. As intelligent systems continue to replace and sometimes outperform human intelligence in decision-making processes, they have made it possible to tackle a host of problems more effectively. This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends. This book collects both theory and application based chapters on virtually all aspects of artificial intelligence; presenting state-of-the-art intelligent methods and techniques for solving real-world problems, along with a vision for future research, it represents a unique and valuable asset.

Enforcing Shareholders' Duties 2019 Hanne S Birkmose A heavily debated topic, the evolution of shareholders' duties risks the transformation of the very concept of shareholder primacy, crucially associated with shareholder rights. Offering a distinctive and comprehensive examination of both current and forthcoming enforcement mechanisms in the area of shareholder duties, this timely book provides an exhaustive analysis of the many issues related to these mechanisms, and considers the ongoing challenges surrounding their implementation.

Limca Book of Records 2020-22 2021-09-20 Hachette India REAL-LIFE SUPERHEROES. CHAMPIONS AMONG CHAMPIONS. THE MOST OUTSTANDING RECORDS. India's firsts and foremost, her stellar victories and accomplishments in human endeavour, structures, education, defence, government, science and technology, adventure, business, cinema, the natural world, literature and the arts - discover them all in this landmark volume that marks 30 completed years of the country's only comprehensive book of records. From the longest, tallest and fastest to the unique and truly extraordinary, this curation of superlatives presents an astonishing range of newly set records as well as those that have stood steadfast over the years. Besides infographics, tables and over 700 colour images, the Super 30 and Record Rewind capsules recall golden moments of the past three decades. In our support of a cleaner and greener planet, a new environment and sustainability section spotlights eco-warriors and their earth-friendly feats. Finally, as a tribute to the fight against the pandemic, the Covid-19 feature traces mighty milestones, compassionate action and innovative ideas that echo the very spirit of the Limca Book of Records - persistence, resilience and triumph in the face of all odds.

The Platform Economy and the Smart City 2021-09-22 Austin Zwick Over the past decade, cities have come into closer contact and conflict with new technologies. From reactive policymaking in response to platform economy firms to proactive policymaking in an effort to develop into smart cities, urban governance is transforming at an unprecedented speed and scale. Innovative technologies promise a brave new world of convenience and cost effectiveness - powered by cameras that monitor our movements, sensors that line our streets, and algorithms that determine our resource allocation - but at what cost? Exploring the relationship between technology and cities, this book brings together an outstanding group of authors in the field to provide a critical and necessary examination of the disruption that is under way. They look at how cities should understand and regulate novel technologies, what can be learned from proposed and failed smart city projects, and how innovative economies change the structure of cities themselves. Contributors dig deeply into these and similar subjects, contributing their voices to an important dialogue on the future of urban policy and governance. The first collection of its kind, this groundbreaking volume brings together social, economic, and cultural insights to enhance our understanding of the ongoing technological upheaval in cities around the world.

Bucket List Destinations - Pattaya T Turner Turner Travel Guides are the most up-to-date, reliable and complete city guides available. Travelers will find everything they need for an unforgettable visit, presented in a convenient and easy-to-use format. Each guide includes quick information on planning a visit, navigating the city, experiencing the local culture, exploring the beauty of the city and more! Pattaya is a seaside resort on the Eastern Gulf Coast of Thailand, about 150 km southeast of Bangkok. Pattaya is mostly famous for its go-go and beer bars, but local authorities have made some efforts to provide more family-friendly attractions and activities. Although the sex industry is still going strong and sex tourism remains the key money earner for Pattaya, the resort also attracts local families and holidaymakers from around the world.

Challenging The City Scale 2018-08-21 Cité du Design Since 2014, the Human Cities network has been working on Challenging the City Scale: a pan-European project led by Cité du design Saint-Étienne and supported by the Creative Europe programme to question the urban scale and investigate co-creation in cities. The Human Cities partners have carried out urban experimentations in 11 European cities empowering citizens to rethink the spaces in which they live, work and spend their leisure time. Through conversations with people involved, the book examines how bottom-up processes and their design, tools and instruments generate new ideas to reinvent the city. It offers inspiration and insights to everyone, from practitioners and politicians to designers and active citizens, eager to try out new ways to produce more human cities together.

Basically, public accountants offer their services in partnerships. They offer their services to individuals, as well as businesses and the government. You need to remember that in order to become a public accountant, you need to be a certified public accountant in order for you to work individually or as part of an accounting firm.

Public accountants basically do jobs, such as taxation, auditing, as well as management advisory services. You should remember that this particular career is considered to be a stepping stone of most accountants. If you want to start your career as an accountant, being a public accountant is usually the first job that you have to take. Here, you will learn a lot of things about running a business and you will also increase your experience.

Another great thing about being a public accountant early on in your accounting career is that it provides a lot of great opportunities as it will give you lots of experiences, and become more in demand by companies to handle their accounts and income.

Obsession Bus Service Update May 2017

Once you start your accounting classes, you have to study all your lessons and know them by heart. This is the only way to become a successful professional someday. And of course, you need to pass all your exams so that you will soon hold your diploma.

There are many career opportunities for accounting graduates. Again, if you think that an accounting course is the best for you, enroll now. Study hard and master the principles and concepts of accounting. Only by then can you say that you're an effective and efficient accountant. Developing awareness in related fields. In accounting alone, there are several career opportunities. If you keep yourself up to date, you will be able to perform effectively and resourcefully. Know the recent developments in the accounting field. Don't focus all your attention to your current career. Miracle Bus Service Update May 2017 -That being said, ask about costs upfront. There may be a sliding scale, and there are resources that exist to defray the costs of the adoption process.

Another factor to consider is any specific focus which you would like the agency to take. Some agencies, for example, specialize only in placing bi-racial children, while others focus solely on children with special needs. Be sure to ask about any such emphasis before choosing an agency. Of course, before you can begin doing all of this, you must locate an agency in your area. Adoption.com maintains an online directory of adoption agencies across the United States, as well as in Canada and the United Kingdom. Here you can browse the clickable map, or search by state, category and agency name. There is also the option of selecting a country to adopt from internationally.

Behind the Bus Service Update May 2017

If targeting for a higher impact, newsletter is the best bet. But if the newsletters are sent to the real potential customers, then this approach should be adopted for message delivery. It should only be opted be after thorough analysis, no matter what the budget is. Another important point is to always hire a professional advertiser or an ad writer because not hiring one will sometimes be more expensive and results in more losses.

How to write Business-to-Business Advertisement

Business-to-business firms are those firms that sell products and services among themselves. The selling is done to a client of other company, who might use the product for intermediate purposes or so. The advertisements relating to B2B companies should not only generate interest but it should also be simply out standing despite the tough competition. In the market, there are several firms who produce the same stuff and they reach out for clients with whom they want to do business. So finding the right client isn't a big deal, but actually getting hold of them is. In written content, use the name of the company in the first sentence; preferably first word. It is not pleasing to start with 'we'. Following it, give a brief introduction about the company. In todays busy world people don't have time to waste so deliver the message right away. Using catchy adjectives will do the trick. The sentence should be framed so that the client knows about the company, what it does and how it is unique from others. Pose questions before creating the writing material, like what is that the customer will expect and do they demand high quality. Don't hesitate to use 'you ' very often. The reader will feel that he is directly being referenced and it will be easier for him to relate to.

Challenge Bus Service Update May 2017

Heat stroke is the severest condition of all heat related illnesses. In this condition the body gets overwhelmed with excessive heat and the efficiency of the system that regulates body heat goes down considerably which can result in a serious emergency requiring immediate medical care. The symptoms of heat stroke include dry and warm skin, very high fever generally above 104 degree Fahrenheit, increased heart rate, appetite loss, nausea, headache, vomiting, fatigue, agitation, confusion, stupor, seizures, coma and possible death. A teenager experiencing symptoms of heat stroke should stay in a cool place and have adequate rest. Heat stroke is a serious condition and emergency attention should be sought by calling 911. In the meanwhile the affected teenager should be made free of excessive clothing and should be worn with cool clothes and also put cool water on the skin to lower the temperature. Placing ice bags in armpits also helps. Make the teenager drink cool drinks if the teenager is alert.

Heat strokes are very much preventable if certain precautions are taken like drinking adequate water during hot days, avoiding alcoholic and caffeine drinks, wearing light clothes, exercising in cooler time of the day, wearing sunglasses and hat, using umbrella on a hot day, applying sun cream with a spf of at least 15 etc.

Solutions Bus Service Update May 2017 ~High Blood Pressure in Adolescents

High blood pressure is a condition where the blood pressure is more than normal. It is also known as hypertension. Heart pumps out blood, so that oxygen can reach to different parts of the body via blood. The pressure with which heart pumps blood is known as blood pressure. The blood pressure comprises of two measures, the systolic pressure and diastolic pressure. Systolic pressure is the larger figure and represents the pressure within the artery of the heart, when contractions take place which pump blood to different parts of the body. Diastolic pressure is the pressure within the artery of the heart, when the blood is filling in the heart and it is at rest. Both the pressures are measured in millimeters of mercury or mmHg. High blood pressure is abnormal increase in systolic pressure or diastole pressure.

Blood pressure is measured by putting a blood pressure cuff on the arm and placing a stethoscope on the chest. There can be very little variation in blood pressure depending upon the time, emotional moods, age, gender, weight, height, physical activity, stress and other illness such as heart disease and kidney disease. Children and adolescents become anxious when they visit the doctor. This is also an important factor which affects the blood pressure and the readings taken get tampered because of it. That is the reason why many blood pressure readings are taken in order to determine whether the adolescent has high blood pressure or not. The nurse may even ask the adolescent to calm down while taken the readings. Time gap is given between each reading, so as to give time to the adolescent to calm down. Emotions can also affect the blood pressure reading.

Everybody loves vacation. There is not a soul that walks the planet that would proactively turn down a vacation for the sake of work. An average adult works about 40 hours a week and rest about a quarter of that time frame. If someone was offered by their boss to go on a paid adventure vacation to an exotic location no one dare say no to that. People need no convincing especially when it comes to a getaway from the routinary ways of life.

People seek out the most exotic places to spend their time away from the city. Places with a mystifying appeal to people attract the curious to check out the myths and truths of the places. Generally, people are curious animals who never stop asking why. That maybe one of the reasons why places that have an adventurous appeal are the most sought after. Places like the outback, the African bush, the savannah and lots more. Places that are screaming adventure are some of the top tourist destinations across the globe. But what exactly is it that thing that makes a vacation an adventure vacation? Do we need to spend more to enjoy more?

Well, not necessarily. Adventure comes in different shapes and sizes and it doesn't have to be like one of Indiana Jones tales or Lara Croft's exploits to be worth calling adventure. Even a small camp out in the backyard can become a great adventure you just need to know how adventure vacations work. First of all, you need to know what an adventure is for you.

Study case Bus Service Update May 2017 ,Socialization is another great advantage of after school programs. Children get to meet others who share their interests and make new friendships. An acting class or a soccer class can be lots of fun. Many of these programs coach children for performances or matches. Performing on stage or playing a match can be a great experience for a young child.

After school programs keep your teenager busy. He or she thus has some amount of protection from destructive habits like drugs and alcohol. Surveys indicate that children who are kept busy through diverse absorbing activities are less prone to abuse, depression and burnout. Significant increase in achievement and attendance and a reduction in drop out rates are other advantages of a good after school programs. Most after school programs have children interacting with one or more adult. This allows them to benefit from positive relationships with adults. Children often find it difficult to confide in parents and teachers, but may open up with other adults.

Arts programs involve communication, interpretation and understanding of complex symbols, much like mathematics and languages. Thus it fosters higher-order analytical skills and skills of evaluation and synthesis. Many of the programs make the child regularly use multiple skills thus making him dynamic and versatile.

Development of imagination, judgment and philosophy are fringe benefits of an arts-based activity. As opposed to the short 45-minute duration of the art classes at school, the extra time allowed in after school activities allows the child to get more involved. This results in more satisfactory opportunities for development of latent capabilities in the child. In turn, the child learns to set high standards of achievement. He understands what sustained focus is and learns that regular practice is the way to excellence.

In the shy or the withdrawn child, theatre, speech or drama lessons may be an outlet for pent up emotions. As drama entails getting into the skin of another person, the child learns to verbalize emotions and express thoughts. These reasons account for the popularity of arts-based activities.

One of the best ways to get accurate quotes for air ambulance transport is by letting the companies fight for your business. Certain websites will allow customers to input the pertinent travel and medical information and let the companies send in their prices. From the comfort of your home, you can peruse the information at your leisure. Based on the price quotes from the air ambulance transport companies, you can then do a little more research on the organization to find the one that is right for you.

When comparing price quotes from air ambulance transportation service companies, make certain that you are comparing apples to apples and not apples to oranges. Find out what is included in each price quote. Does the air ambulance fee cover any and all ground transportation to and from the aircraft? Are family members permitted to fly in the air ambulance with the patient? If so, is this fee part of the price quote?

Another important factor to consider during this process is the type of medical care the patient will receive during the flight. Learn what type of staff will be on board the aircraft. Are there additional fees for specialized services such as a respiratory therapist or NICU team?

First Bus Service Update May 2017 :Although the air ambulance is equipped with devices and tools for adult patients, the special needs of NICU patients are met, as well. Each and every flight on an air ambulance is specifically staffed with the appropriate medical team to suit the situation. All pertinent medical equipment is on board the aircraft to treat the NICU patient safely and effectively.

Any parent learning that their child requires air ambulance transport can breathe a sigh of relief knowing that the air ambulance is well-suited for the job. The equipment and staff on board the flight transform the aircraft into a flying NICU that can handle any emergency.

Discovering a great medieval city

One great thing in Piran is that you can see and enjoy the sights and activities that can be found in its nearby cities like Dubrovnik or in some other places in Italy or Croatia, only that you don't have to spend so much money. This is because Piran offers one of the lowest costs to tourists in terms of places to stay, food, amenities, basic items, and other necessities.

Piran can be considered as one of the most relaxing places for an adventure vacation because it stimulates adrenaline rush just by looking and

walking through wonderful places that remind of the medieval times. Aside from the great architecture that can be seen surrounding the place, one of the things that is really exciting about this place is that it will give you an opportunity to peek into other neighboring islands and towns. As early as the 7th century, people from all over were amazed by the charm of this place. And since it has been under the Venice rule for 500 years, many parts of the city reflect strong influences of colonialism.

Church Accounting Software

The church is a respected institution since it commands the people's general faith. It is always given utmost respect. The secular welfare and religious functions of the church are performed through the faith of its constituents. Church activities need funding and the funds come from Christians all over the world. Are you aware that the Christian contributions can reach billions?

That's true and with such great amount of money, the church should make use of accounting. One way to do this is through a church accounting software. The church should be accountable for their people's money; church officials should therefore monitor where all the money came from and where it is being spent.

The church is a large institution and so are its financial transactions. In order to manage the accounts, the church will need a skilled force of financial experts. However, that would mean additional cost to the church since they have to pay for the services. It can consume so much time and money.

Solutions Bus Service Update May 2017 :The bone marrow replaces small amounts of blood is lost due to some reason without making a person anemic. But in cases where considerable amount of blood flows in small amount of time as a result of an injury due to a serious example for instance, it may not be possible for bone marrow to replace RBCs so quickly resulting in anemia. Also, losing small amounts of blood over long periods of time may also lead to anemia. Example of this situation can be seen in girls who get heavy periods attributed mainly to deficiency of iron in the diet.

Anemia due to iron deficiency is the most common kind of anemia in the United States. It occurs mainly due to lack of iron in a person's diet. A teen with iron deficiency would have lower hemoglobin production and consequently lower RBCs. When the production of RBCs is low the person is regarded as anemic. The signs of anemia are paleness and tiredness. There can be other reasons as to why enough RBCs are not produced in the body. Folic acid and Vitamin B-12 are also essential to produce RBCs. Getting these in adequate quantities is this important too. There can be a problem with bone marrow's working too resulting in anemia.

Hemolytic anemia occurs when a person has RBCs whose lifespan is shorter. The bone marrow may not be able to produce new blood cells if the blood cells die too early. This can result due to many reasons including person having disorders like sphenocytosis or sickle cell anemia. In some cases the immune system of the body may itself destroy the RBCs. In some cases certain antibodies can form in the blood as a result of reaction to certain drugs or infections and may attack the RBCs.

The Best Bus Service Update May 2017 ;Impulses of electromagnetic energy can also be used as the body generates tiny but electrical discharges which influence the function, growth and maturity of certain types of cells. By inserting the needles in these areas, it stimulates and alters the neurotransmitters in the body thus making the patient feel better after treatment. This is also sometimes used for diagnosis and testing.

There are also other forms of acupuncture that do not use needles. For instance there is sonopuncture that uses an ultrasound device that transmits sound waves to points in the body to treat a patient. Some practitioners use a tuning fork or other vibration devices.

Acupressure is another. Here, the professional will use their hands to relieve the pain. This can be used on it sown or with other manual healing techniques.

Facial Acupuncture

Looking beautiful both inside and out is something we all want to achieve. Since your face is ridden with emotion and hormonal issues, you have to take care of it. Fortunately, there is a technique that can do that using painless mini needles and this is better known as facial acupuncture.

Facial acupuncture is a painless procedure that renews not only the face but the body as well. This is because it can erase lines and eye bags making you look younger. At the same time, it can also help clear up pimples and acne.

For this to work, fine needles are placed in acupuncture points on the eyes, face and neck to stimulate the person's natural energies. As a result, this also improves your facial color.

Study case Bus Service Update May 2017 .How It Stops the Addiction

The placement of needles is usually located behind the ear, or on the ear cartilage. This is where the calming effect takes place, curbing the patient's cravings for more cigarettes. People who have a smoking habit are bound to take up the nicotine stick more often whenever they feel stressed, bored, or depressed. Needles are also often inserted on the hand and wrists to promote a steadier flow of bodily energy. The feeling of relaxation will help an individual think twice about lighting a cigarette again.

Furthermore, this treatment has been found to help an individual deal with the withdrawal symptoms better. This alternative medicine promotes better tolerance to pain and discomfort during smoking cessation. Withdrawal symptoms can range from mild to severe and may involve nausea, palpitations, and dizziness. Oftentimes, these same conditions will propel an individual back to his smoking tendencies sooner than later.
